

## Backyard bird count in israel

### PERFORMING THE COUNT

**Dates of survey:** from 15th of January to 31<sup>th</sup> of January 2022

**Where to count?** : Garden, park, or anywhere in the city or village

**Preferable counting hours:** morning from 06:00 to 10:00. (At these are the birds are busy looking for food after the night's sleep, and observing them is relatively easy).

**Count duration:** 10 minutes:

**Counting method:** silently sit or stand in one place and write down the number of birds that you see or hear around you.

When birds are in large numbers and keep moving throughout the area (i.e. large flocks of sparrows or finches) – count the largest number of birds you see during the 15 minutes.

#### Surveyed area:

The radius of the surveyed area will not exceed 100 meters.

Surveyed height above ground as high as you see

You can sample each area few times and it suggested that you would count in other areas also

#### A separate report for every count.

\* Not identified bird: do not report!

### Reporting your count

Report to eBird app., or, alternatively, [eBird-israel](https://ebird-israel.org/) site. You need to register the first time you enter.

Any question? sent to Shlomit <mailto:shlomitlif@gmail.com>
